

The Canada Research program was created by the Government of Canada to cultivate world-class research and development. Canada Research Chairs are funded by the Canadian government (www.chairs.gc.ca) and are designed for exceptional emerging researchers. The position is contingent on the successful candidate being approved by the Canada Research Chair Interdisciplinary Adjudication Committee. The Canada Research Chair is a five year appointment with the possibility of one renewal for a total of ten years.

Tier II Canada Research Chair in Aboriginal Health

Laurentian University (Laurentian) invites applications for the appointment of an exceptional scholar, within the first 10 years of their independent research career, as Tier II Canada Research Chair in Aboriginal Health. Applications are welcomed from scholars who are innovative researchers with demonstrated expertise in Aboriginal health issues with a specialization in either health systems research or community-based research. Areas of expertise are open but will align with existing Laurentian faculty research interests including, for example, Aging, Mental Health and Addictions, primary care, health policy, environmental health, and occupational health. We seek a scholar with a strong record of publications, grant funding, teaching, and community service who can contribute significantly to our understanding of Aboriginal health. Excellent research experience and understanding of Aboriginal knowledge, ethics, and community engagement is required.

The purpose of the Chair is to advance the position of Laurentian as a centre of excellence in research and teaching in Aboriginal health. The successful candidate is expected to be appointed to the School of Rural and Northern Health, to be cross appointed to the Masters of Indigenous Relations Program and to teach and supervise MA and Ph.D. students at Laurentian. We seek an innovative individual with an outstanding record of research and publication, who will provide leadership for national and international collaborative and interdisciplinary research programs.

The successful candidate will be appointed to a tenure-track position at the rank of Assistant or Associate Professor. Interested applicants are invited to send a PDF of their curriculum vitae, a research plan, a record of teaching effectiveness, three published papers relevant to their research interests, and the names and contact information of three referees by June 1, 2015 to Rui Wang Vice
